

Remote-Support

Flexible and skilled. Schöler Hotline-Support

Reduce maintenance costs. Increase flexibility and efficiency.

Our customers are never left alone when their machines have been taken into operation.

Flexible, global service with competent contacts is available when needed to safeguard your production and machine availability – either near you, by phone or remote support.

In case of a machine breakdown fast help is essential. In most cases we can guide your machine operator directly by phone to solve malfunctions – this saves time and reduces service costs to a minimum. In addition our hotline-experts can also connect to nearly all machines and plants to analyze the malfunctions in detail. Specialists from software engineering, electrical engineering and assembly provide advice and assistance at any time.

We would also be pleased to offer you a customized service contract tailored to your requirements. You will be given a personal contact address and ensure short, binding reaction times. If you are interested in our services, please do not hesitate to contact us. Together with you, we define the ideal service package for your needs.
